come true

FRANCES FOUNDATION MISSION STATEMENT

The Frances Foundation has a focused, devoted commitment to bring smiles to kids fighting cancer.

The Foundation strives to alleviate a child's pain and suffering with a special gift, a special gesture, or even a few special moments. The Foundation also provides financial assistance to impoverished families desperately needing help due to their child's fight against cancer. The Foundation seeks to give compassionately to children and families dealing with extremely difficult physical and emotional challenges.

In addition to direct aid to a child or family, The Foundation also supports research aimed to terminate childhood cancers. Helping kids is our passion. Simply stated, **SMILES FOR SERIOUSLY ILL KIDS WITH CANCER** is this Foundation's mission.
